

iTRAQI for moderate-to-severe traumatic brain injury by SA2

injury Treatment and Rehabilitation Accessibility Queensland Index by Statistical Areas level 2

iTRAQI comprises numbers (representing retrieval time to acute care) and letters (travel time to rehabilitation care)

Retrieval time to acute care

Cat Retrieval time (hours)

1 <1

2 1-<2

3 2-<4

4 4-<6

5 6+

Travel time to rehabilitation care

Cat Travel time (hours)

A <2

B 2-<4

C 4+

Retrieval times include coordination and response, on-scene care, and transfers according to trauma triage guidelines, including via regional trauma hospitals when required.

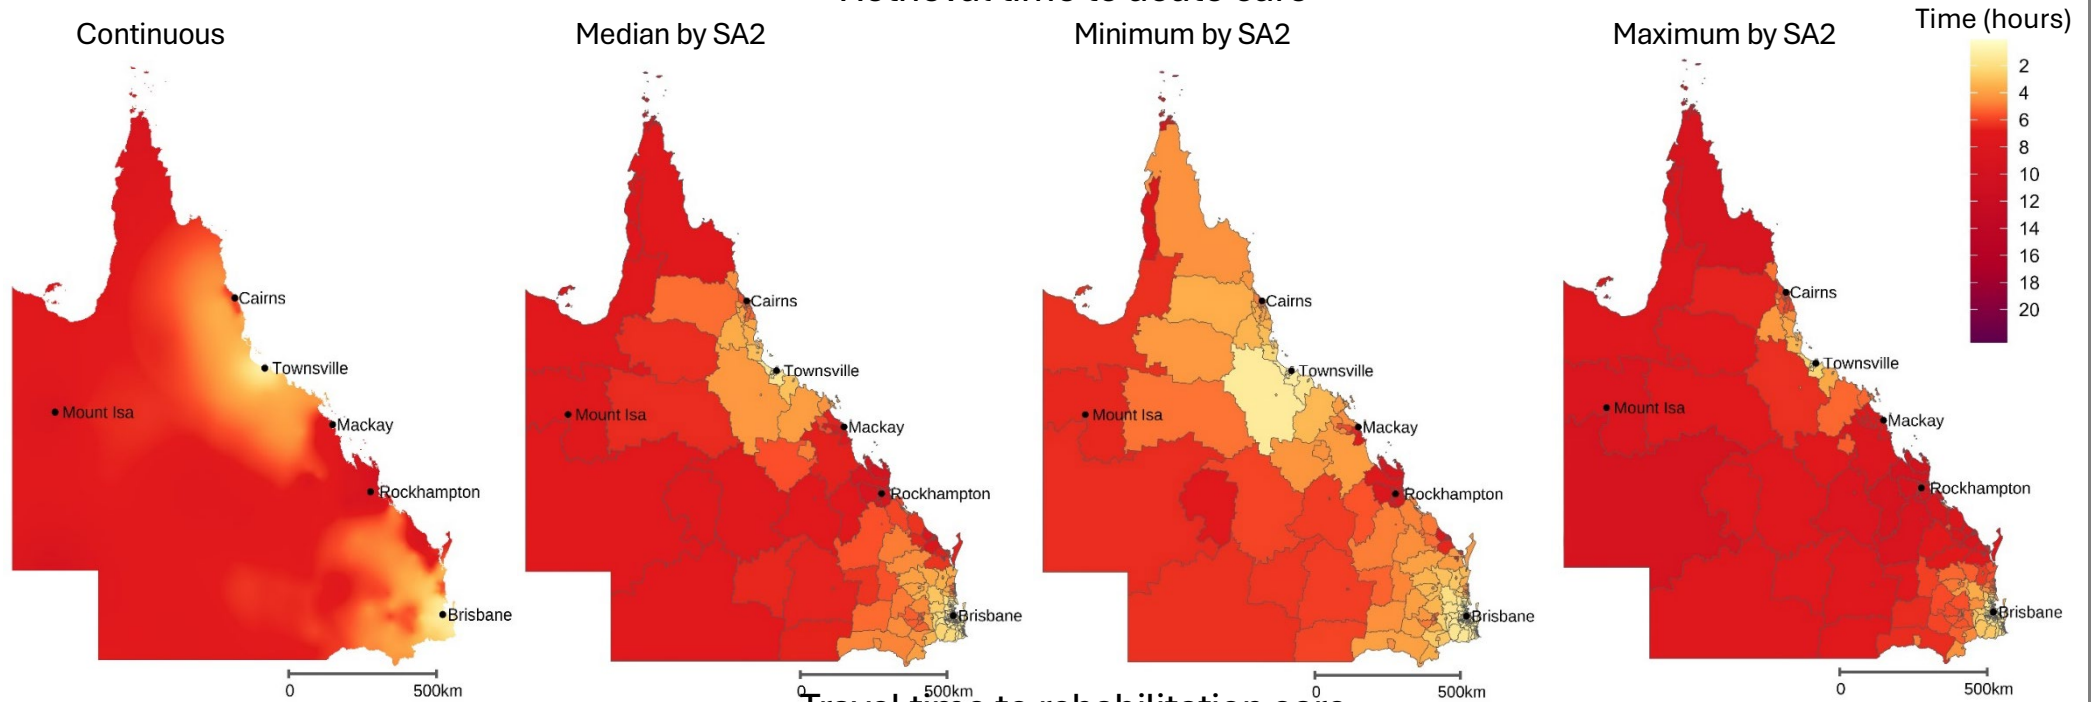

Travel time to rehabilitation is off-peak driving times.

SA2s defined by Australian Statistical Geography Standard 2016.
